
Earthquake Engineering Literature Survey Workshop for Post Graduate Students from Engineering Colleges across India at IIT Kanpur during June 07-16, 2018

A 10 day (June 07-16, 2018) Workshop on Earthquake Engineering Literature Survey was conducted by the National Information Centre of Earthquake Engineering (NICEE) at IIT Kanpur. 29 postgraduate students from 13 different engineering colleges across India participated in this workshop.

During the workshop participants were encouraged to make use of available literature at NICEE library and Central Library for doing quality research work. The participants also interacted with Prof. Chinmoy Kolay, Dr. KK Bajpai and Dr. Rajeev Gupta of IIT Kanpur. During these sessions the participants were given tips on conducting a meaningful literature survey in their area of research topic. Prof. Kolay also apprised the participants about the *role of experiments in developing strategies and techniques for the earthquake resistant construction*.

A visit to the National Wind Tunnel Facility at IIT Kanpur and other laboratories of Civil Engineering was also organised, so that the participants get abreast with the latest available technologies in the country.

90% of the participants were satisfied with the workshop and downloaded approximately 900 MB of data and Xeroxed 300 pages per participant.

The workshop was sponsored by CSIESPL, New Delhi and several supporters of NICEE
