

WORKSHOP ON TEACHING EARTHQUAKE-RESISTANT STRUCTURES IN UNDERGRADUATE ARCHITECTURE DESIGN STUDIOS

MARCH 08- 10, 2025 @ IIT KANPUR

WHO CAN ATTEND ?

This workshop is for all university faculty who teach architecture design to UG students. It's a five-day faculty development program, including a 3-days in-person session at IIT Kanpur and 2-days of project work.

WORKSHOP HIGHLIGHTS

- Focused lectures on EQ resistant structures in architecture studio projects
- Mentorship by experienced pan India resource faculty
- Special lectures from international experts
- Introducing teaching aids and resources, PPT lecture slides and computer program such as RESIST
- Certificates for all successful participants with requisite attendance

OBJECTIVES

Capacity building of architecture design faculty members for:

1. Integrating earthquake-resistant practices in design studios
2. Offering standalone core courses in EQ resistant design practices in the UG curriculum

WORKSHOP REGISTRATION

Teachers/architects who wish to register for the workshop may do so by filling up the registration form available on the NICEE website.

** Participants will be provided regular double occupancy rooms and meals during their stay at IIT Kanpur*
