

**Earthquake Engineering Literature Survey Workshop
for Post Graduate Students from Engineering Colleges across India
at IIT Kanpur during 21-26 August 2006**

Announcement

The National Information Center of Earthquake Engineering (www.nicee.org) has excellent collection of books, journals, periodicals, reports etc. in the area of earthquake engineering. A literature survey workshop is being organized at NICEE at IIT Kanpur during 21-26 August 2006. The aim of this workshop is to enable Masters/Ph.D. students conduct literature survey for their thesis at NICEE. Apart from literature survey, the students will also be demonstrated state-of-the art equipment and testing facilities related to earthquake engineering available at IIT Kanpur. Also, during the week-long workshop, a series of video shows on selected lessons from past earthquakes will be organized. Moreover, the students may also use this opportunity to discuss specific problems related to their research topic with research scholars, faculty members of the department of civil engineering at IIT Kanpur, who specialize in the area of earthquake engineering.

We invite nominations from the Heads of the Department of Civil Engineering or Principals/Directors of engineering colleges/institutes in India from amongst their Ph.D. and final semester M.Tech.Civil Engineering students interested in attending this workshop. The nominations on enclosed form should reach us by 15 July 2006. **Nominated students should be taking up earthquake engineering related research for their thesis.** The selected students will stay with us on our campus in one of the students' hostel. Sponsorships are being sought from different agencies to support the students' travel and boarding/lodging at IIT Kanpur during the review workshop. We may provide partial support for the participation in the workshop depending on availability of funds.

Last date for the receipt of applications has
been extended up to 31 July 2006
